

CODAmeds™ Facts Sheet

Why the CODAmeds™ Dispensers & Travel Cases?

Tired of filling pill boxes, dropping those pills and then choking on them too? CODAmeds™ Dose Dispensers rid you of all those awful chores and disasters.

- **Dispensers benefit everyone.** They are a simple drug, vitamin & supplement dispenser system that anyone can use and swallow pills.
- **Take control of meds.** It's easy to divide & store dosage by days and times as they dispense them by sizes and easy to swallow amounts.
- **Convenience.** They provide easy to see pills in drawers all at your fingertips ready for access to pill doses when needed to dispense.
- **Practical Sizes.** They're versatile dispensers that fit right under-counter kitchen cabinet/shelf storage or as compact travel cases into overnight bags & suitcases.
- **Operates anywhere.** As stand-alone pill dispensers, they run without electricity or batteries.

What are the CODAmeds™ Dispensers & Travel Cases?

The New Standard

Old regular flap-style door pill boxes are an ongoing problem finally solved with the CODAmeds™ Dispensers and Travel Cases that are the new standard with measured management of medications and supplements.

New Help for Service Providers & Health Groups

Drug dosage non-compliance is consistently cited as one of the major reasons for patient readmissions to hospitals as existing pill boxes have failed patients' needs. Not limiting CODAmeds™ dispensers solely to end-users, many healthcare providers and aftercare services need to offer them as a more comprehensive patient self-medication plan to organize medicinal therapy too.
